## The Company

SUNTEC is the leading provider of specialty services to North America's process industries. We pay attention to the unique technical and safety challenges that this type of work involves.

Our company was founded in 1956 as a local enterprise manufacturing various products and providing services for other industrial companies. Focusing on long-term and sustainable development concepts, today we are positioned to be a resource optimization expert in Aerospace and Automotive Industries.

## Testimonials

**Gerald Walthorp**

Because our factory is one of the biggest ones in Idaho, we always found it quite challenging to oversee all the processes there without some kind of a sub-contractor... With the help from these guys, we've managed to take all our repair and maintenance needs under control!

**Steve McQueen**

As an owner of more than 15 plants, spread across 5 Rustbelt states, I cannot afford myself any kind of downtime. That is why I chose this industrial services company, as I was picking someone... to supervise all of our maintenance, repairs and waste management...
